ITwiz Best 100 2018

The SER Group ranks number one in Polish ECM market

(July ==x==, 2018 – Berlin/ Warsaw) SER once again leads the ECM field in 2018 as it did in 2017, when the ECM ranking of ITwiz Best 100* was first introduced. In its annual ranking, ITwiz ranks Polish IT companies and analyzes customer needs. The Best 100 includes an overall ranking and 56 sub-rankings according to business sectors and categories. SER ranks number one in the ECM ranking and is positioned at number 41 in the overall Best 100 among all analyzed IT companies in Poland.

SER's business is stable and flourishing. The growing revenues, especially in comparison with the rest of the market, set SER apart and foster high positions in 20 other Best 100 rankings in addition to the ECM ranking. SER is positioned second among IT companies with the highest earnings per head, the highest revenues in the finance sector, and the highest revenues in other industries. The ECM vendor SER made it into the top three of companies with the highest revenues in IT services, maintenance and in the industry sector. What's more, SER is positioned five times in the top ten and six times among the top 20. This signifies great success for SER, as it has not only established a strong position in its core business – ECM – but it also keeps up easily with other IT companies in the Polish market like Oracle Polska, HP Inc., etc.

"We perform exceptionally well in all relevant sub-rankings. This is a great recognition of our activities and successes in the Polish market," says Morad Rhlid, Managing Director at SER Solutions International.

"ITwiz is an important publication for us and the Polish IT market. We are delighted that we continue to lead the ECM ranking. This gives us the substantiation we need to further expand our footprint. Our ranking performance shows that the power of the Doxis4 iECM platform is a perfect fit, also for customers in Poland," adds Marcin Somla, Director at SER Solutions Polska.
