Press release   **October 19, 2016**

Doxis4 InvoiceMaster powered by SAP NetWeaver

SAP and Doxis4: A perfect team

Bonn, October 19, 2016. Doxis4 InvoiceMaster 8.3 is successfully certified in combination with SAP ERP and SAP NetWeaver 7.40. SER has been a certified SAP partner for archiving solutions for many years. Now, SER expands its certification portfolio to include the inbound invoice processing solution from SAP.

Over fifty percent of all SER customers use both Doxis4 and SAP in equal measure. "SER has gained Doxis4 InvoiceMaster certification and once again demonstrated its credentials as a premium ECM partner for SAP," says Klaus Eulenbach, Managing Director of SER Software Technology GmbH and Head of Development at the SER Group. "The certificate represents investment security for our customers, who can optimize their invoice management workflows with SER and SAP. For companies already using SAP ERP, Doxis4 InvoiceMaster is a secure add-on for inbound invoice processing. It helps customers with the automated processing of creditor invoices," says Klaus Eulenbach, in describing the advantages of the integrated software solution.

Doxis4 has successfully been used as a secure long-term archiving solution for SAP documents and data for decades and proven its suitability several times over. SER customers can keep their SAP systems working efficiently and actively manage retention periods for archived SAP documents using the certified interfaces Doxis4 HCS 7.02 and Doxis4 webDAV Connector for ILM 01.00 – also *powered by SAP NetWeaver*.

Doxis4 InvoiceMaster: The test scenario

The invoice management solution from SER proved its suitability in combination with SAP ERP during SAP's official testing procedure. The certificate from SAP SE confirms that Doxis4 InvoiceMaster has been successfully integrated with SAP NetWeaver 7.40 via the "ABAP Add-On Deployment for SAP Enterprise Resource Planning" SAP integration scenario. SAP development standards and requirements were incorporated right from the start of the development phase for Doxis4 InvoiceMaster. The result: the

SER solution integrates seamlessly with the leading SAP system and can be installed using standard SAP tools.

About the SER Group

SER connects people, products and processes in the most efficient way possible to create the digital workspace of the future. With our leading Doxis4 iECM suite we have been setting new standards in the development of enterprise content management software (ECM) for the past 30 years. More than one million satisfied users worldwide rely on our user-friendly solution to increase their return on information. The unified platform for ECM and BPM (business process management) seamlessly integrates content and processes to the benefit of its users. ECM Excellence by SER unites vision, inspiration, experience, awareness and the expertise of our team of over 550 employees.

With sales representations in Germany, Austria, Switzerland, BeNeLux, France, Iberia, Poland, Russia, United Kingdom and China, we offer our customers localized products and services according to their needs. An international network of professional business partners supports us in further locations. You can find more information online at: www.ser-solutions.com.
